

*The BC Ministry of Energy, Mines & Petroleum Resources, Natural Resources Canada
and the MEND Program in association with the BC Technical and Research Committee on
Reclamation and INAP present:*

14th ANNUAL BC/MEND METAL LEACHING / ACID ROCK DRAINAGE WORKSHOP

Challenges in Collection and Treatment of Mine Drainage

November 28 and 29th, 2007
Simon Fraser University Harbour Centre
Room 1900, 515 West Hastings Street
Vancouver, BC

The theme for this year is 'The Challenges in Collection and Treatment of Mine Drainage'. Topics will include prediction of maximum rates and volumes of flow, process control, treatment of lower strength as well as strongly acidic drainage, passive treatment, managing treatment residues and operating costs. The emphasis will be on full-scale mitigation, case studies, practical constraints and sustaining successful remediation.

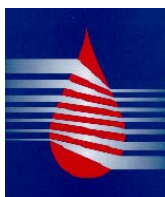

When the list of presenters is finalized, the agenda will be posted on the MEND web site at: mend.nrcan.gc.ca. After the workshop, a CD ROM of the presentations will be mailed to all registrants.

Please register in advance by mailing the registration form on the back and a cheque in the amount of \$100.00 (Canadian) **payable to the "TRCR-ARD Workshop"** to:

<p>MEND Secretariat Natural Resources Canada 555 Booth Street, Room 328 Ottawa, Ontario K1A 0G1</p> <p>E-mail: mend_nedem@nrcan.gc.ca Telephone: (613) 992-2172 Fax: (613) 947-5284</p>

Please register early, as the workshop is restricted to the first 180 registrants.

For further information please contact Mr. Gilles Tremblay (613-992-0968; gtrembla@nrcan.gc.ca) or Dr. Bill Price (250-847-9335; bprice@nrcan.gc.ca)
